

College of Education ~ School District Partnerships

Partnerships between schools and the College of Education are established as a collaborative endeavor to explore and share knowledge that shapes educator leadership and best practice. Partnerships allow us to work together to simultaneously improve teacher education and renew Pre-K to grade 12 instruction.

Partnership schools provide clinically rich classroom experiences linking Theory to Practice.

Partnership Highlights

In addition to providing field experience placements for education courses and student teaching the following schools collaborate with the College of Education offering unique partnerships:

- Long-standing afterschool instruction based on individual student needs.
- Freshmen, sophomore, junior and senior level college courses taught on-site at a school followed by a field experience.
- Teaching English Language Learners in various diverse school districts.
- Competency based full year internship with 3 student teaching experiences.
- Science education courses taught at schools and in natural settings.
- Positive Behavioral Intervention Support (PBIS) workshops.
- Enhance the learning of literacy and writing in high-need schools.
- Training and implementation of certified national programs.
- Specific infant, toddler and pre-school settings.
- Special education settings with a focus on autism.
