

Intern WALL OF FAME

Wade Weatherlow
(Business Administration/Management, Senior)
Management of a Publicly Regulated Corporation
DFT Communications

My internship experience at DFT Communications was excellent! I could not have found a more diverse company to have experience. I found myself making numerous analogies between textbook examples and theories to tangible business practices. My internship allowed me to see the operations of publicly regulated and non-regulated businesses. I have gained valuable insight and experience regarding competition in the product and service industries. I would highly recommend an internship at DFT Communications. The application of your knowledge from higher learning is truly self-fulfilling and where you bring real value to all of your future endeavors.
