

INTERN WALL of FAME

Alyssa Karb-Stolfo

Senior, Biology

**General Surgery Shadow &
Capstone Research Intern**

Brooks Memorial Hospital –

Dr Joe Askar

Dunkirk, NY

“During my internship I observed multiple surgeries at Brooks Memorial Hospital, I was also able to learn patient care and office work in the physician's office.

I gained knowledge of patient core diagnostics and therapeutic procedures. This internship has helped me to become familiar with the hospital setting and office visits. I have learned how to talk to patients and about different surgeries.

My advice to other students debating an internship would be to take the opportunity. Even if you end up not liking it you will learn so much that will help you decide what you want to do.

Overall this internship was the best part of my college experience and I am forever grateful to have had this opportunity.”
